IMPORTANT INFORMATION - RETAIN FOR FUTURE USE

When using any electrical appliance, basic safety precautions should always be followed including the following:

- Always ensure that the voltage on the rating label corresponds to the mains voltage in your home
- Incorrect operation and improper use can damage the appliance and cause injury to the user.
- This appliance can be used by children aged from 8 years and above if they have been given supervision or instruction concerning use of the appliance in a safe way and if they understand the hazards involved. Cleaning and user maintenance shall not be made by children unless they are older than 8 and supervised. Keep the appliance and its cord out of reach of children aged less than 8 years. Check the power cord and plug regularly for any damage. If the cord or the plug is damaged, it must be replaced by the manufacturer or qualified person in order to avoid an electrical hazard.
- Do not use the appliance if it has been dropped or damaged in any way. In case of damage, take the unit in for examination and/or repair by an authorised service agent.
- Never immerse the unit in water or any other liquid for cleaning purposes.
- Remove the plug from the socket by gripping the plug. Do not pull on the cord to disconnect the appliance from the mains. Always unplug the unit when not in use, before cleaning or when adding or removing parts.
- The use of accessory attachments that are not recommended or supplied by the manufacturer may result in injuries, fire or electric shock.
- Do not let the cord hang over the edge of a table or counter. Ensure that the cord is not in a position where it can be pulled on inadvertently.
- Do not allow the cord to touch hot surfaces and do not place on or near a hot gas or electric burner or in a heated oven.
- Do not use the appliance on a gas or electric cooking top or over or near an open flame.
- Use of an extension cord with this appliance is not recommended. However, if it is necessary to use an extension lead, ensure that the lead is suited to the power consumption of the appliance to avoid overheating of extension cord, appliance or plug point. Do not place the extension cord in a position where it can be pulled on by children or animals or tripped over.
- This appliance is not suitable for outdoor use. Do not use the appliance for anything other than its intended use.
- Do not carry the appliance by the power cord.
- Do not leave the appliance unattended during use. Always unplug the unit when not in use or before cleaning.
- Always operate the appliance on a smooth, even, stable surface. Do not place the unit on a hot surface.
- Ensure that the unit is switched off after use.
- The manufacturer does not accept responsibility for any damage or injury caused by improper or incorrect use, or for repairs carried out by unauthorised personnel.
- In case of technical problems, switch off the product and do not attempt to repair it yourself. Return the appliance to an authorised service facility for examination, adjustment or repair. Always insist on the use of original spare parts. Failure to comply with the above mentions precautions and instructions, could affect the safe operation of this product.
- Your appliance must never be switched on through an external timer or any kind of separate remote control system

TECHNICAL DATA

Description: Pancake/Crepe Maker

Model: SF26010N

Input Voltage: 230V

Frequency: 50Hz

Power consumption: 800 Watts

DO NOT IMMERSE IN WATER

CAUTION: Surfaces become hot during use

HOW TO USE

Remove all packaging before using.

Next job, make some pancake batter! It is important to us that your first experience with the product is a positive one, so we recommend that for first time operation, use pancake/crepe batter ready mix from supermarket. It is inexpensive, and gives good results with very little waste.

Make up the pancake/crepe batter according to the instructions on the packet (we have included a couple of recipes later on if you want to make your own batter).

The important thing here is **CONSISTENCY**. The best mix consistency for using this type of machine is something similar to single cream

There are two methods. The first is best for pancakes, The second is best for thinner crepes

Method 1 (Pancakes)

Place on a flat stable surface. Connect the pancake maker to the mains, switch on and allow to preheat for a few minutes. The indicator light will go out when it has reached correct cooking temperature. Please do **NOT** touch the cooking surface as it becomes very hot of course.

Refer to images below for best technique.

HOW TO USE

Pour the mixture quickly but carefully on the middle of the cooking surface. When the pool is about 2-3cm from edge, stop pouring!

Allow to cook for a couple of minutes then use the spatula to carefully turn it over.

Use the spatula again to fold the pancake and remove to a serving plate. If it is difficult to fold (too thick), add a little more milk to your mixture and try pouring a little quicker!

Serve and consume!

Swan

HOW TO USE

Method 2

This method is great for making those wafer thin crepes! It take a little practice though.

Pour the mixture into a suitable dinner plate. Dip the inverted crepe maker into the mixture for 2 to 3 seconds

Lift out, hold for a second or two then turn over. There will be a very thin crepe applied to the cooking surface. Leave to cook for around 3 minutes.

Carefully fold the crepe over on to itself. No need to flip as cooking from one side is sufficient. Remove to plate & repeat.

Serve and consume!

HOW TO USE

TIPS

Whether you are making pancakes or crepes, carefully wipe the cooking surface and spatular between each pancake/crepe. Also wipe the spatular itself clean regularly to prevent sticking.

BASIC RECIPES

Crepes

100g (4 oz) plain flour
1/2 teaspoon caster sugar
1/4 teaspoon salt
225ml (8 fl oz) milk
1 egg

Mix thoroughly. If necessary, add small amounts of flour or milk to achieve consistency of single cream for best results.

Pancakes

100g plain flour
2 large eggs
300ml milk

Mix thoroughly. If necessary, add small amounts of flour or milk to achieve consistency of single cream for best results.

CLEAN UP & MAINTENANCE

Unplug and allow the crepe maker to FULLY cool before cleaning. Use kitchen towel to clean all surfaces. A soft cloth moistened with a mild detergent solution can be used for any stubborn stains.

DO NOT IMMERSE ANY PART OF THE PRODUCT IN WATER. DO NOT RUN UNDER THE TAP. DO NOT USE ABRASIVE OR CHEMICAL CLEANERS

DOCUMENTATION

We Swan Products Ltd declare that this product conforms to the following product legislation in accordance with the following directive[s]:

2004/108/EC The EMC Directive (the Electromagnetic Compatibility Directive).
2006/95/EC The LVD Directive (Low Voltage Directive).
2011/65/EU The RoHS directive (Restriction of Hazardous Substances Directive)
EC 1935/2004 Food Contact

WARRANTY

This product is guaranteed for 2 years from the date of original purchase. If any defect arises due to faulty materials or workmanship the faulty products must be returned to the place of purchase. Refunds or replacement is at the discretion of the store.

The following conditions apply:

- The product must be returned to the retailer with proof of purchase.
- The product must be installed and used in accordance with the instructions contained in this instruction guide.
- It must be used only for domestic purposes.
- It does not cover wear and tear, damage, misuse or consumable parts.
- Swan Products Ltd has limited liability for incidental or consequential loss or damage.
- This guarantee is valid in the UK and Eire Only.

BS PLUG

The wires in the mains lead are coloured in accordance with the following code:

BLUE	NEUTRAL
BROWN	LIVE
GREEN/YELLOW	EARTH

As the colours of the wire in the mains lead of this appliance may not correspond with the colour markings identifying the terminals on your plug, proceed as follows:

The wire which is coloured BLUE must be connected to the terminal which is marked with the letter N or coloured black. The wire which is coloured BROWN must be connected to the terminal which is marked with the letter L or coloured red. The wire which is coloured GREEN/YELLOW must be connected to the terminal which is marked with the letter E or (earth symbol) and is coloured GREEN or GREEN/YELLOW.

WARNING: THIS APPLIANCE MUST BE EARTHED

DISPOSAL OF UNIT

Appliances bearing the symbol shown here may not be disposed of in domestic rubbish. You are required to dispose of old electrical and electronic appliances like this separately. Please visit www.recycle-more.co.uk or www.recyclenow.co.uk for access to information about the recycling of electrical items. Please visit www.weeeireland.ie for access to information about the recycling of electrical items purchased in Ireland. The WEEE directive, introduced in August 2006, states that all electrical items must be recycled, rather than taken to landfill. Please arrange to take this appliance to your local Civic Amenity site for recycling, once it has reached the end of its life.
